

Fourth Quarter Enrichment PE Groupings

After Spring Break, we will be starting our final Quarter of this school year! During this quarter, the enrichment groups will be different which will result in different PE groups. One group will concentrate on problem solving skills in social and school work settings. The other group will be building a binder to be used once they have transitioned out of Rawson-Saunders.

Group S		Group T	
Ashley	Elena	Andrew	Dillon
Hayden	Jess	Ellie	Julia
John	Livie	Kyle	Lewis
Maggie	Marissa	Marcos	Sasha
Paloma	Ross	Shelby	Steven
Stefan	Tessa	Taylor	Zeynep

VIP DAY

It was good to see so many visitors on VIP Day. In Science it was fun to share the Egg Drop results with our visitors. Mr. C. and Mr. D. were happy to have the adult visitors participate in their classes. In world cultures, we engaged in a debate about online schools. In some of the math classes we played a card game where we calculated the highest and lowest total number possible with the cards each person was dealt. It was a good time!

Dr. Seuss' Birthday

In some of the math classes, we found out about how to use Pi to calculate the circumference of a pie. Of course, we ate the pie. ☺ In another math class, we measured the mass and length of our stuffed animal friends and had read about Polar Bear Math. In Science, we applied the Laws of Motion to a variety of Dr. Seuss stories like Yertle the Turtle.

Have a great Spring Break! See you on March 17.
